

ISG AutoCam: Elite Camera Solution

ISG AUTOCAM ELITE EDITION CAMERA INCLUDES A USER-FRIENDLY SET OF TOOLS FOR CARD PRODUCTION.

FAST, PERFECT PHOTOS

- USE THE ISG AUTOCAM FOR HIGH INTENSITY PHOTO FLASH FOR PERFECT CAPTURES FROM 18 INCHES TO 14 FEET FROM THE CAMERA.
- TWAIN COMPATIBILITY TO WORK WITH ALL MAJOR ID SOFTWARE APPLICATIONS THAT ARE TWAIN COMPLIANT.
- USB COMPATIBLE WITH 4 PORT USB HUB AND BRICK POWER SUPPLY FOR USB INTERFACE BOX.
- CLICK, DRAG, AND RELEASE TO MOVE CAMERA FOCUS TO ANY LOCATION IMMEDIATELY.

The ISG AutoCam Camera Solution helps speed up your ID program with automatic one-click AutoPosition.

The ISG AutoCam Elite Camera boasts a unique one-click AutoPosition feature allowing you to double-click on any face feature to position the camera perfectly in under a second. Click, drag, and release to move the camera to focus on any location immediately. The ISG AutoCam Elite gives you full optical pan, tilt, zoom, and exposure control from the mouse or keyboard. The synchronized photo flash works with your software to control flash exposure and highlight flesh tones. You get perfect captures every time, even in dark rooms.

As the largest integrator in the southwest, Multicard offers complete identification, access control and accountability solutions engineered to meet your needs. Our local sales, service, and support are available to assist with all of your identification needs.
