

IDENTITY MANAGER SOFTWARE

Enterprise ID Software

ID badges are critical to organizations of all sizes, as they provide the foundation for that facility's security. When implementing a badging system, ask yourself what you want your card to do. BadgePass Identity Manager is the credential management solution experts trust when they want to do more with their cards than just wear them.

Key Features:

- Database integration tools (DataSync/AD Plug-in)
- Driver's license scanning
- Free Access Control software
- Compatible with all desktop card printers
- Enhanced print functionality with BadgePass NXT5000 card printer
